

# BUILD-A-BUILD PROJECT OUTLINE

Joseph Al-Abudi F21

## MVP

Description: This app will allow users to sign into an account that will save their builds they make for the videogame League of Legends. Users will be able to create builds that will have them select a champion(all selections will be done from dropdowns), and 6 items in the order that they build it in-game, save them to their account, edit existing builds, or delete them altogether.

### Main Features:

1. User Login
2. Creating Custom Builds
3. Editing Custom Builds
4. Deleting Custom Builds

## Front End

- app has at least 5 semantic tags \*
- app includes 1 view \*
- app includes 1+ additional view(s)
- styling includes flexbox
